EXPERIENCE

Full Stack Developer

AB Infotech Solution

Jan 2025 – Jun 2025

Pune, India

- Gaining hands-on experience in Full stack Development while working on real-world projects.
- Engineered 20+ RESTful API endpoints using Node.js and Express.js, optimizing performance and ensuring secure user authentication and course management with response times under 200ms. Designed and implemented scalable MongoDB schemas.
- Integrated JWT authentication and role-based access control, enhancing security and enforcing access restrictions between admins and students.

PROJECTS

Compile Code

Collaborative Code Editor [\[Link\]](#)

- Developed a real-time collaborative code editor capable of handling 10+ concurrent users, enabling seamless pair programming, instant code sharing, and team discussions through an integrated chat feature.
- Integrated Judge0 API to support real-time code execution across 10+ programming languages, ensuring low-latency compilation and a smooth coding experience for developers.
- Implemented CodeMirror for advanced syntax highlighting and real-time error detection, enhancing debugging efficiency by 30% and improving overall code readability and maintainability.

LearnNotion

Learning Management System [\[Link\]](#)

- Engineered a full-featured Learning Management System (LMS) using the MERN stack, empowering 1,000+ students and educators to seamlessly create, consume, and rate educational content.
- Integrated secure authentication, role-based authorization, and automated email notifications using NodeMailer, achieving a 95% email deliverability rate and enhancing user engagement.
- Implemented Razorpay for secure, real-time payment processing, enabling seamless course purchases and revenue tracking for educators, boosting monetization opportunities.

Epicentra

Epic Platform for Writers & Readers [\[Link\]](#)

- Developed a dynamic blog platform (Epicentra) using the MERN stack, enabling 5,000+ users to read, write, and engage with content through likes and comments.
- Integrated Google authentication, improving login security and reducing unauthorized access by 90%, while role-based access control ensures data integrity.
- Optimized content navigation with pagination, reducing page load time by 40%, and implemented Editor.js, allowing users to create and format 100K+ rich text articles seamlessly.

EDUCATION

B.Tech in Computer Science And Engineering
Yeshwantrao Chavan College of Engineering,
Nagpur | 2025

Maharashtra State Board of Secondary and
Higher Secondary Education | Maharshi
Walmiki Junior College, Amravati | 2021

Maharashtra State Board of Secondary and
Higher Secondary Education | Adarsh High
School, Daryapur | 2019

EXTRA CURRICULAR

Walmart Advanced Software Engineering
Virtual Experience Program on Forage -
March
Walmart USA | 2025 | [\[Link\]](#)

Technical Blogger - Medium

Publish technical articles on Full stack development, AI, DSA, software development and more. [\[Link\]](#)

CERTIFICATIONS
